## Oral History Project:

### St Richard's - 30 years of memories

Open to all Staff & Volunteers past and present

In 2014 at the 30<sup>th</sup> anniversary celebrations for St Richard's there was an overwhelming feeling from those present that the memories and experiences of those involved in the foundation of the hospice should be recorded for posterity before it is too late. The project "St Richards Hospice Voices" has collected digital recordings, photos and documents charting the creation of the hospice from kitchen table to the present building and services offered to date. The project has been funded by the Heritage Lottery Fund (HLF) as it is considered "of immeasurable heritage value" and the HLF were pleased to support the capturing of evidence for "moments in history when palliative care changed dramatically with the emergence of the hospice movement in the UK"

Come and join us and hear some of the very interesting stories and wonderful reflections from those involved in founding St Richard's through to the present reflections of service users.

**Free of charge to St Richard's Hospice Staff and Volunteers**

Lunch is NOT provided on this occasion
